**Re: WC Docket No. 14-58
Submission of Redacted Version of FCC Form 481 for
Valley Telephone Cooperative, Inc. (Study Area Code 452176)**

Dear Ms. Dortch:

Attached for electronic filing is a copy of the redacted public version of the FCC Form 481 of Valley Telephone Cooperative, Inc. (the “Company”) which contains: (1) the Company’s financial information of required by Section 54.313(f)(2) of the Commission’s Rules (which is filed in compliance with the Protective Order referenced below); (2) the Company’s updated five-year plan required by Section 54.313 of the Commission’s Rules; and (3) certain unadvertised broadband pricing-related information.

The Company’s FCC Form 481 has been electronically filed with the Universal Service Administrative Company. Consistent with the Commission’s Protective Order, WC Docket No. 10-90 *et al.*, DA 16-296, released March 22, 2016 and 47 C.F.R. § 0.459 of the Commission’s Rules, the Company, under separate letter, has submitted the confidential version of the Company’s FCC Form 481 which contains the Company’s financial information required by Section 54.313(f)(2) of the Commission’s Rules, the Company’s updated five-year plan and certain unadvertised broadband pricing-related information.

Respectfully submitted,

Thomas J. Moorman
James A. Overcash
Valley Telephone Cooperative, Inc.

Re: WC Docket No. 14-58

**Submission of Confidential Version of FCC Form 481
for Valley Telephone Cooperative, Inc. (Study Area Code 452176)**

Dear Ms. Dortch:

Pursuant the requirements of the Commission's Protective Order, WC Docket No. 10-90 *et al.*, DA 16-296, released March 22, 2016 (the "Protective Order") and 47 C.F.R. § 0.459 of the Rules of the Federal Communications Commission) (the "Commission" or the "FCC"), attached for filing is one copy of the confidential version of the FCC Form 481 of Valley Telephone Cooperative, Inc. (the "Company") which contains the Company's financial information required by Section 54.313(f)(2) of the Commission's rules (which is filed in compliance with the Protective Order), and the Company's Annual Progress Report to its five-year plan (the "Annual Progress Report")¹ required by Section 54.313(a)(1) of the

¹ The Company notes that this Annual Progress Report is required until certain rule changes by the Commission associated with reporting geocoded locations are approved by the Office of Management and Budget. *See In the Matter of Connect America Fund, et al., Report and Order*

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
June 30, 2016
Page 2

Commission's Rules and certain unadvertised broadband service pricing-related information (the latter two items which are filed pursuant to the requirements of Section 0.459 of the Commission's Rules).

The Company's FCC Form 481 has been electronically filed with the Universal Service Administrative Company on June 30, 2016. Consistent with the Protective Order and Section 0.459, the Company is submitting separately the public version of the Company's FCC Form 481 which redacts the confidential information from the submission the Company's Section 54.313(f)(2) financial information and the Company's confidential information contained in the Annual Progress Report and certain unadvertised broadband service pricing-related information.

Section 54.313(f)(2) Financial Information

In the Protective Order, the Commission established procedures for the submission of the financial information required by Section 54.313(f)(2) of the Commission's Rules. The Protective Order establishes the procedures under which such submission can be made. The Company respectfully submits that, in good faith, those procedural requirements (which include copies and specific page headers) have been followed. Thus, under the Protective Order, the Company respectfully requests that its Section 54.313(f)(2) information be kept confidential.

Sections 54.313(a)(1) Progress Report to Its Five-Year Plan, Section 54.313(a)(2) Broadband Service Pricing-Related Information

In addition to its submission of Section 54.313(f)(2) information for which it seeks confidential treatment, this letter also submits the Company's Progress Report as part of its 2016 FCC Form 481 submission to its initial five year construction and service improvement plan submitted by the Company last year.² Further, as part of its 2016 FCC Form 481 submission, the Company also seeks confidential treatment of certain unadvertised broadband service pricing-related information as noted below.

Pursuant to 47 C.F.R. § 0.459 of the Commission's Rules, the Company, by Counsel, hereby requests that the identified portion of the Annual Progress Report Information and certain broadband service pricing-related information as noted in sub-section (1), below, be

and Order on Reconsideration, and Further Notice of Proposed Rulemaking, WC Docket Nos. 10-90 *et al.*, FCC 16-33, released March 30, 2016 at paras. 215-216.

² Accompanying this letter is the Declaration of Steven D. Metts, Chief Executive Officer of the Company certifying to the facts stated in this request.

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
June 30, 2016
Page 3

withheld from public inspection. Specifically, the Company requests that information attached hereto and as required to be submitted in order to be fully responsive to the requirements found in 47 C.F.R. §§ 54.313(a)(1) and 54.313(a)(2) be withheld from public inspection because that information contains trade secrets and, as applicable, commercial, financial, and technical data that is guarded from disclosure to competitors and the public in the Company's normal and ordinary course of business.

The Commission requires certain Eligible Telecommunications Carriers ("ETCs") to file a five-year service quality improvement plan and Section 54.313(a)(1) then requires an ETC to provide progress reports regarding that plan over the course of the five years. Similarly, FCC Form 481 also includes a line item Line 710 which requires the disclosure of certain broadband pricing-related information. The Annual Progress Report, includes a description of upgrades to the Company's network along with updated estimates regarding the Company's proposed major constructions projections as further described and noted in its Annual Progress Report, including for example, updated estimated capital expenditures for each project and, if applicable, updated time frames for those projects that were planned to be completed by the end of calendar year 2015, along with a map that provides a pictorial depiction of such deployment plans, and how much federal universal service funding was received (the "Annual Progress Report Information"). Line 710 of FCC Form 481 requires, among other items, the disclosure of residential broadband rates, speeds, and usage allowances.

The Company respectfully submits that its Annual Progress Report Information and unadvertised broadband pricing-related information are each competitively sensitive and is a "trade secret" which has been defined as "information which is used in one's business and which gives him an opportunity to obtain an advantage over competitors who do not know or use it." See Restatement of Torts §757 (1939). The Annual Progress Report Information represents the Company's efforts to comply with the requirements of Section 54.313(a)(1) of the Commission's Rules based on the Company's collective experience, thought, analysis, and planning along with the Company's opinion of market trends, conditions, technologies, and customer preferences arising out of, *inter alia*, the Company's existing operations within the rural areas it serves in Arizona. Just as would be the case for one of its competitors and that competitor's experience, the cumulative effect of this effort affords the Company "an advantage over competitors" that do not have access to the information.

Disclosure of the Company's Annual Progress Report Information relates to the existing and planned improvement and upgrade plans, time frames, and affected customers and locations would provide competitors with the views and insights of the Company and its business planning during period covered by this submission and those anticipated network upgrades and capabilities that the Company believes, all things being equal, are necessary to meet its obligations under applicable Commission Rules, service commitments and efforts to retain customers. Improper public access to this Company information would enable existing and

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
June 30, 2016
Page 4

potential competitors to respond preemptively and unfairly by utilizing internal Company information that is guarded closely and not disclosed to third parties during the normal and ordinary course of business. Public access to the Company's Annual Progress Report Information, therefore, would enable competitors to tailor marketing and/or entry strategies in a manner that would not be possible but for the provision of the Annual Progress Report Information to the Commission. Thus, competitors would be able to target and/or modify their competitive service plans to take advantage of those locations where projects are not underway, or plan for competitive offerings in those areas where the Company's plans are known but for which the competitor had no plans previously.

Similarly, with respect to the Company's unadvertised broadband pricing-related information, this information is derived from individually negotiated and engineered requests from specific customers, reflecting where the Company's network can capably provide higher broadband speed based upon, among other items, the customer's physical location proximity to an appropriate network broadband node and the cost of providing the service being reflected in the agreed-upon rates between the customer and the Company. As a result, the Company respectfully submits that if this unadvertised broadband pricing-related information is publicly available, competitors could obtain insights into the operations of the Company, and its capability to respond to service requests when network engineering indicates that alternative broadband speeds can be sustained to meet the customer's specific request. Such knowledge, in turn, would allow competitors to target and/or modify their competitive service plans to mirror or possibly exceed the Company's capabilities not previously anticipated by the competitor as necessary.

With respect to these two discrete pieces of information -- the Annual Progress Report Information and unadvertised broadband pricing-related information -- public disclosure of any of this information in the Company's view, would be inconsistent with the competitive goals of the 1996 revisions to the Communications Act of 1934, as amended (the "Act"). In general, competition is the "effort of two or more parties, acting independently, to secure the business of a third party by the offer of the most favorable terms." Black's Law Dictionary, Sixth Ed. West Publishing Co., St. Paul, MN (1991). By contrast, utilization of trade secrets by a firm in order to gain market share would ignore a fundamental principle of competition, specifically, the pursuit of consumers by two or more parties "acting independently." Disclosure of the trade secrets and the use by competitors of the confidential information contained in either the Annual Progress Report Information or the unadvertised broadband pricing-related information would be inconsistent with the competitive objectives of the Act, as the disclosure would allow access to these three areas of Company information disclosed in response to the FCC Form 481 requirements that would not otherwise be independently available to one of its competitors.

Accordingly, pursuant to Section 0.459(b) of the Commission's Rules, the following is provided in support of this request:

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
June 30, 2016
Page 5

(1) Identification of the specific information for which confidential treatment is sought.

The Company seeks confidential treatment of the following Annual Progress Report Information regarding. The Company seeks confidential treatment of the Voice and Broadband Upgrade Projects for 2015 as well as the related capital expenditure, operational expenses, and federal Universal Service Fund utilization data as disclosed in response to Line 112 of the FCC Form 481.

The Company also seeks confidential treatment of certain unadvertised broadband pricing-related information related to the Company's individually priced customer service offerings in response to Line 710 of the FCC Form 481.

(2) Identification of the Commission proceeding in which the information was submitted or a description of the circumstances giving rise to the submission.

The Annual Progress Report Information is submitted as a result of the requirements of Section 54.313(a)(1) of the Commission's Rules and Section 254 of the Act, as required by FCC Form 481. *See, e.g., In the Matter of Connect America Fund, et al., Report and Order and Further Notice of Proposed Rulemaking*, WC Docket No. 10-90 *et al.*, 26 FCC Rcd 17663 (2011), *aff'd* In Re: FCC 11-161, 753 F.3d 1015 (10th Cir. 2014); *see also* 47 C.F.R. §54.313. The unadvertised broadband pricing-related information is required by the Commission with respect to the submission of the FCC Form 481.

(3) Explanation of the degree to which the information is commercial or financial, or contains a trade secret or is privileged.

The Annual Progress Report Information is commercial and financial information, and contains trade secrets in that it reveals the Company's timing of, expenditures associated with, and customer impacts arising from its network upgrade plans for provisioning broadband services. This information is highly confidential because it describes the Company's plans for the network, including: a good faith estimated schedule for such projects; the wire centers included in such projects; an explanation of projects known or scheduled to be underway in the future, as well as planned construction projects currently underway; the estimated cost of the projects; and the estimated population and census blocks to be affected by the project.

Likewise, based on how the Company responds to specific requests for broadband service and the technical capability of its network should a customer request specific broadband services not otherwise publicized by the Company, the Company respectfully submits that the

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
June 30, 2016
Page 6

resulting unadvertised broadband pricing-related information requires the disclosure of trade secret and confidential information.

(4) Explanation of the degree to which the information concerns a service that is subject to competition.

The Annual Progress Report Information relates to the Company's network, with the formed information relating to the planning and the status of on-going networks deployments required for the provision for local exchange service and the provision of broadband internet access service, which are both competitive services. To a somewhat similar extent, the Company's unadvertised broadband pricing-related information is also based in part on the Company's network capabilities but also includes aspects of customer-specific decision making regarding, for example, the price for which that service will be offered and agreed to by the customer. The geographic area in which the Company operates are also covered in part by other service providers including but not limited to various wireless service providers that compete with the services provided by the Company as well as a terrestrial-based provider of voice and broadband over cable television facilities and fixed wireless providers.

(5) Explanation of how disclosure of the information could result in substantial competitive harm.

In addition to those points raised in response to Subsection 1, above, disclosure of the Annual Progress Report Information could result in substantial competitive harm by revealing to competitors the nature and extent of the Company's business plans to continue to provide the quality of voice service and broadband internet access service over its network that has enabled the Company to retain its existing customer base, and the current status of planned network upgrades previously provided. This information, therefore, would enable competitors to unfairly discover the Company's existing proposed plans and current status with respect to those projects it has decided would be necessary to ensure continued high quality service throughout its service area and its requirements under applicable Commission Rules.

As explained and described above, the information submitted describes the Company's confidential business plans and operational capabilities based on the facts that the Company has today. Thus, disclosure of the Annual Progress Report Information would provide existing and potential competitors of the Company keen insights into the Company's infrastructure plans based on existing circumstances. These types of insights, in turn, would enable such competitor to craft or update its business plan to either target those areas where it believes the growth of market share can occur vis-à-vis the Company's non-upgraded facilities or to target its own investment or operational capabilities in those areas where, but for the Company's Annual Progress Report Information, the competitor would not have seen the need to invest or improve its operations to retain or gain market share. So too, public disclosure of the unadvertised

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
June 30, 2016
Page 7

broadband pricing-related information would allow competitors the same types of insights into the Company's existing network capabilities as well as provide insights into how the Company and its customers may determine how specific requests for services are resolved. In such situations, the competitor may identify areas where it needs to make increased investment or improve not only its operations but its customer-outreach in an effort to identify other areas where customer-specific service requests could be pursued.

In such a circumstance, the competitor would be able to "game" the market place by understanding where its competitor – the Company – believes network improvement dollars are best spent as well as the timing of such decision and disclosure of the unadvertised broadband pricing-related information could allow the competitor to game the market by seeing what customer-specific needs are being met by the Company on an individualized basis. Such results do not encourage fair competition nor support fair competition. Rather, such action would undermine competition by enabling competitors to acquire competitively sensitive information of the Company. That acquisition of information, in turn, would improperly assist that competitor's effort to gain customers not as a result of its own decision making and capabilities but as a result of access to commercially sensitive information from the Company that reflects the Company's decision making and capabilities.

(6) Identification of any measures taken by the submitting party to prevent unauthorized disclosure.

The Annual Progress Report Information and the unadvertised broadband pricing-related information as submitted by the Company are each generally protected to prevent unauthorized disclosure. Disclosure of this information is limited solely to internal corporate discussions and, where necessary, disclosure to vendors or others whose participation is necessary to plan or implement such projects (and such disclosure is made subject to a professional confidentiality obligation).

(7) Identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties.

The Annual Progress Report Information and the unadvertised broadband pricing-related information is not published, nor provided to the public, nor included in any publicly-available documents or materials of the Company. The information has not been disclosed to third parties unless such disclosure is subject to a professional confidentiality obligation.

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
June 30, 2016
Page 8

(8) Justification of the period during which the submitting party asserts that material should not be available for public disclosure.

The Company submits that the Annual Progress Report Information and the unadvertised broadband pricing-related information should be treated as confidential on a permanent and on-going basis. The Annual Progress Report Information discloses and reveals the Company's strategy, and provides competitively sensitive information in that it reveals the Company's approach to and status of network upgrades and improvements. The information should be treated as confidential even after the five-year period described in the Annual Progress Report Information has passed since, to the extent exogenous events or changed business plans alter the schedules or outcome of the network upgrade plans described therein, those descriptions and plans may be wholly relevant and applicable in a successive time period.

So too, the Company's unadvertised broadband pricing-related information should also be treated as confidential on a permanent and on-going basis. The unadvertised broadband pricing-related information discloses and reveals to an extent the Company's network related operational capabilities to address, and the Company's ability to meet, customer-specific requests for service based on the Company's technical capabilities along with the price for which the customer is willing to pay for the service. This information provides competitively sensitive information in that it reveals the Company's approach to and status of the Company's commitment to its customers to respond to reasonable requests for services that the Company, in turn, can engineer in a manner that meets its customer's expectation for high quality telecommunication services. Like the Annual Progress Report Information, the Company respectfully submits that the unadvertised broadband pricing-related information should be treated as confidential even after the five-year period described in the Annual Progress Report Information has passed since, to the extent exogenous events occur providing a further track record of the Company's capabilities, a trend analysis of such responsiveness could be established providing additional inappropriate insights to competitors of the Company's operations and capabilities. Thus, the current unadvertised broadband pricing-related information may be wholly relevant and applicable in a successive time period.

(9) Any other information that the party seeking confidential treatment believes may be useful in assessing whether its request for confidentiality should be granted.

The requested treatment of this information as confidential and proprietary by the Commission is consistent with the Commission's policies in addressing other submissions that contained competitively sensitive information.

For example, with respect to the Annual Progress Plan Information, the Commission recognized in the *Local Competition and Broadband Reporting, Report and Order*, CC Docket No. 99-301, FCC 00-114 (rel. Mar. 30, 2000) that information submitted with Form 477 (Local

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
June 30, 2016
Page 9

Telephone Competition/Broadband Reporting) (the “Form”) implicated concerns related to the disclosure of competitively sensitive data. The Form requires information regarding the type of technology used to deliver broadband services, including total connection to end-users, information transfer rates, and an estimate of the percentage of residential end-user premises in the provider’s service area to which the provider’s broadband connections could be provided using installed distribution facilities. The Commission requires the information because it “conclude[d] that the answers to these questions are necessary to describe and understand the state of competition for local telephone services and the deployment of broadband services in diverse areas of the nation.” *Id.* at ¶62. As a general matter, these same types of considerations are, in the Company’s view relevant to the Company’s unadvertised broadband pricing-related information in that such information reflects the Company’s ability to respond to customer-specific service requests.

At the same time, however, the Commission also recognized “concern over the potential for competitive harm that release of the gathered data could cause.” *Id.* at ¶88. While stating that it was not “making a prospective decision about whether these data elements would satisfy the Commission’s standard for non-disclosure,” the Commission also stated that it would “not . . . publish in our publicly available reports individual provider-filed data for the broadband (Part 1) portion of the Form, *even where providers do not seek non-disclosure of this data.*” *Id.* at ¶91 (emphasis added). In fact, rather than require carriers to submit a detailed and specialized request with the Form, the Commission offered filers a “check-box” on the Form in order to “mak[e] it easier for providers to request confidential treatment of their data.” *Id.* at ¶90. This same approach – the checking of a box to assert confidentiality – is also available to filers of the financial information required by the submission of the FCC’s FCC Form 499-A and FCC Form 499-Q. *See* 2016 FCC Form 499-A, line 605 and 2015 Telecommunications Reporting Worksheet Instructions (FCC Form 499-A), Form 499-A at 46; *see also* FCC Form 499-Q, line 121 and Telecommunications Reporting Worksheet, FCC Form 499-Q (2016) Instructions for Completing the Quarterly Worksheet for Filing Contributions to Universal Service Support Mechanisms at 19.

The Company respectfully submits that similar concerns that the Commission has recognized previously regarding the competitively-sensitive nature of carrier data are applicable here; the data related to current and future plans of Company found in the Annual Progress Plan Information reflects construction projects reflected in the Annual Progress Report is at least as, if not more, competitively-sensitive than the type submitted in other FCC forms. For example, unlike the Form 477 Information which describes current broadband capabilities and FCC Form 499-A regarding prior year revenues and FCC Form 499-Q regarding prior quarter and projected quarter revenues, the Annual Progress Plan Information also reflects the Company’s reasoned business decision making as to future actions and the status of them that it believes are necessary to ensure quality service over its network.

Ms. Marlene H. Dortch, Secretary
Federal Communications Commission
June 30, 2016
Page 10

Relief Requested

Therefore, for all of the reasons stated herein, the Company respectfully requests that the Company's Section 54.313(f)(2) financial information be treated as confidential under the requirements of the Protective Order. The Company also respectfully requests that the Commission to recognize that the Annual Progress Report Information and unadvertised broadband pricing-related information for which confidential treatment is requested, as described above, be withheld from public inspection. Pursuant to the requirements of the Protective Order and Section 0.459(a) of the Commission's Rules, the materials to which this request applies are submitted physically separated from any materials to which the request does not apply and are marked "REDACTED – FOR PUBLIC INSPECTION". Moreover, pages containing Section 54.313(f)(2) confidential information are marked "CONFIDENTIAL INFORMATION — SUBJECT TO PROTECTIVE ORDER BEFORE THE FEDERAL COMMUNICATIONS COMMISSION." Further, pages containing information regarding the Company's Annual Progress Report Information and unadvertised broadband pricing-related information are marked "CONFIDENTIAL".

Respectfully submitted,

Thomas J. Moorman

Select the appropriate responses below (Yes, No, Not Applicable) to note compliance as a recipient of Incremental High Cost support, High Cost support to offset access charge reductions, and Connect America Phase II support as set forth in 47 CFR § 54.313(b),(c),(d),(e). The information reported on this form and in the documents attached below is accurate.

Incremental Connect America Phase I reporting

<2010> 2nd Year Certification 47 CFR § 54.313(b)(1)(i) - Note that for the July 1 2016 certification, this applies to Round 2 recipients of Incremental Support

<2011> 3rd Year Certification 47 CFR § 54.313(b)(1)(ii) - Note that for the July 1 2016 certification, this applies to Round 1 recipients of Incremental Support

<2022> Recipient certifies, representing year two after filing a notice of acceptance of funding pursuant to 54.312(c), that the locations in question are not receiving support under the Broadband Initiatives Program or the Broadband Technology Opportunities Program for projects that will provide broadband with speeds of at least 4 Mbps/1Mbps - 54.313(b)(2)(i). Round 2 recipients only.

<2023> The attachment on line 2024 includes a statement of the total amount of capital funding expended in the previous year in meeting Connect America Phase I deployment obligations, accompanied by a list of census blocks indicating where funding was spent. This covers year two - 54.313(b)(2)(iii). Round 2 recipients only.

<2024A> Round 2 Recipient of Incremental Support?

<2024B> Attach list of census blocks indicating where funding was spent in year two - 54.313(b)(2)(ii). Round 2 recipients only.

<2025A> Round 1 or Round 2 Recipient of Incremental Support?

<2025B> Attach geocoded Information for Phase I milestone reports (Round 1 for year three and Round 2 for year two) - Connect America Fund, WC Docket 10-90, Report and Order, FCC 13-

<2015> 2016 and future Frozen Support Certification 47 CFR § 54.313(c)(4)

4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations - FCC 14-98 (paragraphs 26-29, 70)
Please address Line 4001 regarding compliance with the Commission's public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions - FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes - attach new community anchors, no - no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

4003b. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.

Name of Attached Document Listing Required Information

Broadband Deployment Locations - FCC 14-98 (paragraph 80)

4004a. Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filing deadline for the FCC Form 481.

Name of Attached Document Listing Required Information

4004b. Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband speed and data usage allowances available in the relevant geographic area.

Unfulfilled Service Request - Broadband

Pursuant to 47 C.F.R. § 54.313 (a) (3) Valley Telephone Cooperative, Inc. ("Valley") had 7 requests for broadband service in its service area during calendar year 2015 that were unfulfilled. Copper follows the Aid to Construction policy for all unfilled requests.

Any individual, business, or developer/builder requesting communications services at a location currently un-served by the Valley, must have on file a completed application for service, approved by properly designated personnel and any associated construction costs.

Response to Line 510

Description of Efforts in Compliance With
Service Quality Standards and Consumer Protection for Voice and Broadband Networks

Valley Telephone Cooperative, Inc.

SAC 452176

Valley Telephone Cooperative, Inc. (the Company) is a wireline rural local exchange carrier serving as an ETC in southeast Arizona and southwest New Mexico. The company complies with all state and federal service quality and consumer protection standards.

The Company continually strives to maintain the highest customer satisfaction by consistently going beyond the minimum standards of service quality and consumer protection. The Company regularly trains all customer contact personnel in CPNI and Red Flag rules in order to maintain strict compliance. This training is designed to enforce compliance with relevant state standards for consumer protection and quality of service.

Response to Line 610

Certification of Functionality in Emergency Situations for

Valley Telephone Cooperative, Inc.

SAC 452176

Valley Telephone Cooperative, Inc. (the Company) is a wireline rural local exchange carrier serving as an ETC in southeast Arizona and southwest New Mexico.

In order to assure reasonable back-up power to protect functionality in the event of failure of the external power grid the Company has equipped all central offices with a minimum of eight hours of battery backup plus stationary generators with on-site fuel supplies that are capable of a minimum of one week run time. All remote carrier facilities are equipped battery backup that is designed to last at least eight hours. The Company maintains an additional generator on wheels that can be deployed in the event of a need. All batteries are routinely maintained and replaced as needed. All generators are regularly tested and serviced to assure readiness.

The network employed by the Company has electronic redundancy in all layer 3 network segments and most layer 2 network segments. The Company has the ability to route traffic remotely in outage or emergency situations in layer 3 and most layer 2 networks.

The Company has the capability to prioritize traffic in emergency situations.

Voice Services Comparability Report

Pursuant to 47 C.F.R. § 54.313 (a) (10) Valley Telephone Cooperative, Inc. ("Valley") is in compliance with the requirement that voice services is no more than two standard deviations above the national average urban rate for voice service of \$41.07 as specified in Public Notice DA 16-362 issued on April 5, 2016. Copper's current total local end-user rates¹ of \$16.01 to \$16.79 (which includes a local fee of \$16.00 and surcharges and any EAS) is not above the standard deviation as specified in the USF/ICC Transformation Order.²

¹ Local End User Rate as defined in USF/ICC Transformation Order 26 FCC Rcd at 17751, Para. 238

² USF/ICC Transformation Order, 26 FCC Rcd at 17694, Para. 84 (footnote included) "The standard deviation is a measure of dispersion. The sample standard deviation is the square root of the sample variance. The sample variance is calculated as the sum of the squared deviations of the individual observations in the sample of data from the sample average divided by the total number of observations in the sample minus one. In a normal distribution, about 68 percent of the observations lie within one standard deviation above and below the average and about 95 percent of the observations lie within two standard deviations above and below the average."

Broadband Services Comparability Report

Pursuant to 47 C.F.R. § 54.313 (a) (11) Valley Telephone Cooperative, Inc. ("Valley") charges a residential rate of \$59.95 for broadband providing 10 Mbps download, 1.5 Mbps upload, and an unlimited usage allowance. This rate is lower than \$75.26, which is the 2016 reasonable comparability benchmark for the same offering established by the Wireline Competition Bureau.¹

¹ *Wireline Competition Bureau Announces Results of 2016 Urban Rate Survey for Fixed Voice and Broadband Services and Posting of Survey Data and Explanatory Notes*, Public Notice, WC Docket No. 10-90, DA 16-362 (rel. April 6, 2016).

Response to Line 1210

Description of Lifeline Terms and Conditions

Valley Telephone Cooperative, Inc.

SAC 452176

Valley Telephone Cooperative, Inc. (the Company) is a wireline rural local exchange carrier serving as an ETC in southeast Arizona and southwest New Mexico. The lifeline service offered has unlimited local calling and equal access to the long distance provider of the customer's choice.

The Company is an equal access ILEC and therefore provides all customers the option to utilize the toll provider of their choice.

The residential rate for local service from July 1, 2015 to June 30, 2016 was \$16.00 in Arizona and \$16.00 in New Mexico before consideration of the applicable state and federal lifeline discounts.

Milestone Certification

Pursuant to 47 C.F.R. § 54.202(a) Valley Telephone Cooperative, Inc. ("Valley") provides this certification that it is taking reasonable steps to provide upon reasonable request broadband speeds of at least 10 Mbps downstream/1 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to offerings in urban areas as determined in an annual survey as specified in Public Notice DA 16-362, and that requests for such service are met within a reasonable amount of time. Details for how CTTC is meeting its obligations for meeting its goals and required obligations are specified within the FCC Form 481 annual filing.

We have audited the accompanying consolidated financial statements of Valley Telephone Cooperative, Inc. and Subsidiaries, which comprise the consolidated balance sheets as of December 31, 2015 and 2014, and the related consolidated statements of income, comprehensive income and patronage capital, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation to the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Valley Telephone Cooperative, Inc. and Subsidiaries as of December 31, 2015 and 2014, and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 17, 2016, on our consideration of Valley Telephone Cooperative, Inc. and Subsidiaries' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors
Valley Telephone Cooperative, Inc.
Willcox, Arizona

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the consolidated financial statements of Valley Telephone Cooperative, Inc. and Subsidiaries as of and for the year ended December 31, 2015, and the related notes to the financial statements, which comprise of the Cooperative's basic consolidated financial statements, and have issued our report thereon dated March 17, 2016.

Internal Control Over Financial Reporting

Management of the Cooperative and Subsidiaries is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit of the consolidated financial statements, we considered Valley Telephone Cooperative, Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Cooperative's internal control. Accordingly, we do not express an opinion on the effectiveness of the Cooperative's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Cooperative's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Cooperative's consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion of the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. This report is intended for the information of the Board of Directors, management, Rural Utilities Services, and supplemental lenders, and is not intended to be and should not be used by anyone other than these specified parties.
